OnePlus	One
Crosscall	Trekker-X1

** These phones only display wind speed

*** These phones used to be compatible with the Sleipnir wind meter, but our latest software updates conflict with recent updates by Sony.

IMPORTANT: Sleipnir requires a digital compass sensor on your phone to measure wind direction! If you're using a old phone that is not on this list and probably has no

digital compass Sleipnir might still work displaying only the wind speed.

Vaavud minimum app requirements

iOS7.1 and above. Soon to become iOS 8

Android 4.0 and above
